SUMMARY

I am a software developer and user interface designer. I learned C/C++ and Java as part of my bachelor degree; and later I learned Python and Web Technologies through self-study. I have kept my knowledge and my skills up to date by continuously reading documents and developing mini applications. I also attended the Master of Science(MSc) program in Information Security at Amirkabir University of Technology (Tehran Polytechnic) which I left without completing my thesis due to personal reasons. Eventhough I didn't receive my degree, I gained invaluable insight into security protocols and practices used in software development.

SKILLS

- Clean Code
- Database Design
- API Design & Development
- Front-end Web Development
- Mobile Application Development
- UI Design

TECHNOLOGIES

★★★ HTML / CSS

★★★ JavaScript

★★★ React

★★☆ Django

★★☆ Git

★★☆ SQLAlchemy

★★☆ HTTPx

★☆☆ Bash

★☆☆ NextJS

★☆☆ SQLalchemy

★☆☆ Vector Design

★☆☆ Java

★★★ Python

★★★ FastAPI

★★☆ ReactNative

★★☆ Linux

★★☆ Sass

★★☆ Figma

★☆☆ TypeScript

★☆☆ Tailwind

★☆☆ Redux

★☆☆ C / C++

EXPERIENCES

- PLANLY March - July 2024
The design and development of a minimal daily planner
The application is written in JavaScript and developed with React Native framework

Education

- BSc of Mathematics 2010 - 2015
Amirkabir University of Technology (Tehran Polytechnic)
- Diploma of Mathematics & Physics 2010
NODET High School

Languages

- Farsi (Native)
- English (Advanced)
- Spanish (Beginner)
