Ahwaz, Iran

SUMMARY

I am a software developer and user interface designer. I learned C/C++ and Java as part of my bachelor degree; and later I learned Python and Web Technologies through self-study. I have kept my knowledge and my skills up to date by continuously reading documents and developing mini applications. I also attended the Master of Science(MSc) program in Information Security at Amirkabir University of Technology (Tehran Polytechnic) which I left without completing my thesis due to personal reasons. Even though I didn't receive my degree, I gained invaluable insight into security protocols and practices used in software development.

SKILLS

- Clean Code
- Database Design
- API Design & Development
- Front-end Web Development
- Mobile Application Development
- UI Design

FRAMEWORKS

- Django
- React
- NextJS
- Sass
- FastAPI
- React Native
- TypeScript
- Tailwind

EDUCATION

BSc of Mathematics   2010 - 2015

Amirkabir University of Technology (Tehran Polytechnic)

EXPERIENCES

"PLANLY" Mobile Application

Designed the user interface of the application with respect to the best practices of UI design. I used "Figma" web application for this design.

Developed this application using "React Native" and "Expo" frameworks; and I built the application with "Expo Application Services" build tool. Some of other packages I used in the development of this application include "react-navigation", "react-native-draggable-flatlist", and "react-native-screens".

VOLUNTEER EXPERIENCES

AIESEC 2014-2015, 2017

As a oGV team member, participated in marketing and on-boarding assessment sessions for AIESEC AUT.

As a HR team leader, planned and administrated on-boarding assessment sessions, organized information sessions for AIESEC AUT, while attending leadership meetings at AIESEC AUT and AIESEC in Iran. Later, I joined AIESEC Ahwaz in the same role, and with the same responsibilities.

AUT Film Club 2010-2011

Participated in marketing and sales. Responsible for planning and administration of multiple movie screening sessions.
